

Portion of Transcript from Fox News the Ingraham Angle and Secretary Kennedy's appearance on the May 5th, 2025.

[Link to Video.](#)

Starting at 6:30 in the Segment.

Laura Ingraham: 6:30: You may have seen this over the weekend New York Democrats your old friends Chuck Schumer and Kristen Gillibrand blasting what they called a cruel effort to dismantle a 911 health program talking about more cuts from HHS this is kind of typical they do this with Trump as well you're stealing Christmas you're taking the doll the dolls from the kids and the train sets because of the tariffs but now it's cuts to those critical programs your response to them?

Secretary RFK Jr: 7:01: President Trump has not cut the 911 Program. We took that program and we took a lot of OSHA and there was also a lot of complaints that we ended OSHA, but we've just consolidated that in a new subagency called the Administration for Healthy America. Those programs were not terminated as the media has reported but they've simply been consolidated into a place that makes more sense.
