The 25 Anniversary Commemoration Benefit is a fundraiser for Citizens for the Extension of the James Zadroga Act, Inc., a grassroots advocacy organization whose mission is to support injured and ill 9/11 responders and survivors who are still to this day suffering from their exposure to toxins at Ground Zero in New York, the Pentagon and the Shanksville crash site in the aftermath of the 9/11 attack.

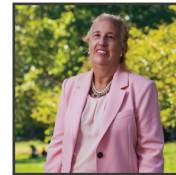

Citizens for the Extension has been working to maintain nationwide, bipartisan support for the World Trade Center Health Program to continue its mission to provide medical treatment and monitoring for the thousands of injured 911 responders and survivors who live in every State and in 434 out of 435 Congressional Districts.

After years of having to fight to get Washington to recognize the size and scope of the health crisis facing so many, we still need to make sure that their health needs are being addressed and that the program has the resources it needs now and in the future.
